## A Look at CIA

*To the Editor of The Post-Standard:*

Instead of your "humorous" editorial on what would happen with respect to cows if conservatives had their way you might take a long and serious look at what our Central Intelligence Agency in Washington, is doing to further the cause of Castroism in Cuba. Even you must read Henry J. Taylor's column in your own paper, or don't you care? Your flippancy amazes me.
